

Powerdrive Transmission is strategically positioned to service all sectors of industries including agriculture, mining, petrochemical, sugar, paper, and general engineering, as well as the automotive and domestic sectors.

As a single, unified entity, we make it easier and simpler for our customers to source the widest range of high quality brands.

LEADING DISTRIBUTORS OF INDUSTRIAL SPARES

WHO WE ARE

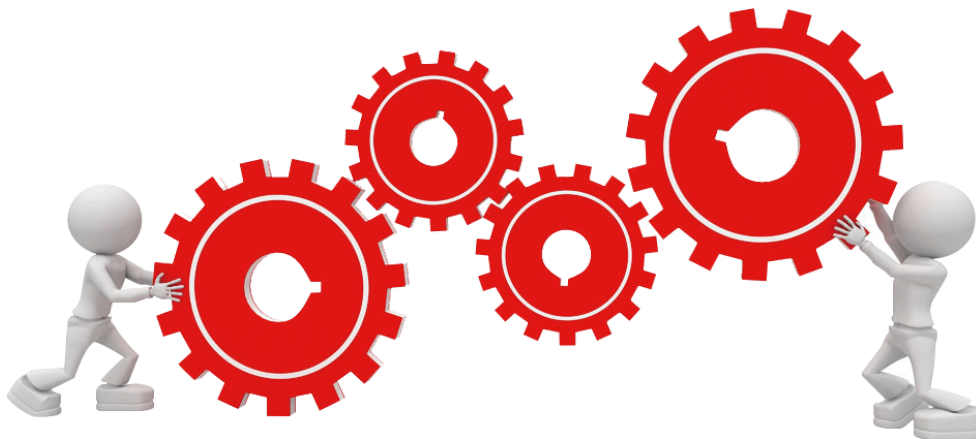

Through the consistent expansion of our operation since 2006 we have grown to become one of Zimbabwe's largest specialist distributor of engineering components. This expansion and growth has birthed our newest branch in Johannesburg, South Africa.

Powerdrive Transmission is strategically positioned to service all sectors of industry including agriculture, mining, petrochemical, sugar, paper, and general engineering, as well as the automotive and domestic sectors.

Our new vision is to be an integral part of the productivity and operations of each customer's business. By providing technical solutions that optimize productivity, Powerdrive Transmission will make a difference to the efficiencies of every plant. Our company will continue to supply leading brands of quality products, supported by world-class technical skills.

Skills training, programs which encompass strong focus on technical skills, selling and service skills, as well as management and financial skills, will empower staff to help drive and deliver specific business objectives. Powerdrive Transmission has secure and exclusive supply, service and distribution agreements with some of the world's most respected manufacturers of leading engineering components. Immediate availability of a comprehensive range of quality branded products sets our company apart in a highly competitive industry.

The Powerdrive Transmission circle is formed by the precise interlocking of three identical arcs, each representing a fundamental aspect of Powerdrive Transmission.

WE KEEP THE WHEELS OF THE INDUSTRY TURNING

VISION

Our vision is to be a powerful force in the engineering industry, providing superior technical solutions to our customers. This will be achieved through our leading brands of quality products and the best technical skills available. We strive to be a focused organization of people trained and dedicated to offering our customers brilliant service.

MISSION |

To offer one source of supply to the replacement, resale and OEM markets, through a network of strategically situated branches, To ensure correct selection and operation of products, in the interests of striving for total customer satisfaction; to provide technical resources, design and advice services, from a large and comprehensive inventory of quality branded products to customers operating across the broad spectrum of the industry.

VALUES |

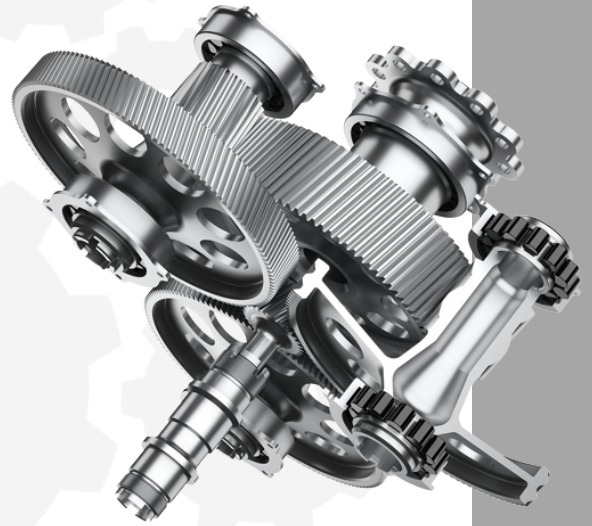

To employ highly experienced and knowledgeable staff capable of serving the needs of our customers and their industry requirements. To equip our staff with necessary skills required to meet the future growth, market and service demands of Powerdrive Engineering. To treat Powerdrive Engineering's most important assets, its employees, with the respect deserving of professionals in their field, acknowledging their capabilities and recognizing their achievements.

GO BEYOND THE LIMIT
